

GATAMANENI SUDEEP

AI & MACHINE LEARNING • SOFTWARE • DATA ANALYTICS

India | [your email] | [your phone]
LinkedIn: [profile] | GitHub: [profile] | Portfolio: [website]

PROFESSIONAL PROFILE

AI & Machine Learning student focused on building practical, intelligent products. Strong working knowledge of Python, Java, Machine Learning, Deep Learning, NLP, Power BI, Full-Stack Development, databases and IoT. Interested in transforming real-world problems into scalable AI-powered solutions across healthcare, agriculture and analytics.

CORE TECHNICAL SKILLS — HIGHLIGHTED

PYTHON AI/ML • EDA • Automation • Data Processing	MACHINE LEARNING SVM • KNN • Classification • Prediction
DEEP LEARNING & NLP Neural Networks • Transformers • AI Applications	POWER BI DAX • KPI Dashboards • Data Visualization • Analytics
FULL-STACK React.js • Node.js • Express.js • Flask/FastAPI • REST APIs	DATABASES MongoDB • Firebase • PostgreSQL
IOT ESP32 • Arduino • MQTT • Sensors • Connected Systems	TOOLS Git/GitHub • VS Code • Hugging Face • OpenAI APIs

FEATURED PROJECTS

- MedAssist AI**
Healthcare AI assistant concept with secure user onboarding, profile data, report upload, backend storage and AI-assisted report understanding.
- AgriPulse — AI Operating System for Farmers**
AI-driven agriculture platform covering crop selection, irrigation, fertilizer guidance, disease alerts, harvest timing, storage planning and transport matching.
- Power BI Sales Analytics**
Interactive business dashboard with KPIs, targets, regional/product analysis, data cleaning, DAX measures and decision-focused visualization.
- Smart Grid Fault Detection — IoT**
ESP32/Arduino-based connected sensing concept for identifying electrical faults and abnormal operating conditions.

EDUCATION

B.Tech / B.E. — Artificial Intelligence & Machine Learning | 2nd Year
[College / University Name] | [City, State] | Expected Graduation: [Year]

CAREER FOCUS & STRENGTHS

AI Engineering • Machine Learning • Data Analytics • Healthcare AI • Smart Agriculture • Full-Stack AI Apps • IoT
Problem Solving • Analytical Thinking • Rapid Learning • Team Collaboration • Project Development • Presentation
